

I would like to take this opportunity to express my opinion on the Radio Station KLOVE and tell you why it should not go low power or priority in this community. KLOVE has been a strong influence in my life and in the lives of my co-workers as I play it at work. We live in a very difficult area of the country being so close to Mexico. Drugs and Crime are hi in Tucson. People in this area are up all night and need to hear some good news and encouraging music. If the station goes low power or other programming is on, the people have less opportunity to change their lives. There are plenty of stations out there that offer just music. On this station the opportunity for counseling services in the neighborhood, opportunity for prayer and real people with real solutions can help real people with real problems.
Thank you for listening to me.
